Key Features

Quick Key System Access:

You can scan any District scan groups by pressing the number key(s).

PC Programming:

Use the Sentinel software to manage your scanners Profiles, and Favorites Lists.

4 GB microSD® card provided (supports up to 32 GB):

For storing Favorites Lists, Profiles, all your settings, Discovery sessions, and recording sessions.

Built-in Battery Charger:

Allows you to charge the batteries in the scanner.

Operation on 3xAA Batteries

Additional Features

Instant Replay:

Plays back up to 240 seconds (4 minutes) of the most recent transmissions.

Alpha Tagging

Backlit Keypad & LCD

Close Call® RF Capture Technology:

Lets you set the scanner so it detects and provides information about nearby radio transmissions. Close Call Do-not-Disturb checks for Close Call activity in between channel reception so active channels are not interrupted.

Favorites Scan:

Allows you to organize your Systems into Favorites Lists. The scanner will scan multiple Favorites Lists at the same time.
